

Supporting the Technology Transfer Mission

The Oak Ridge Science and Technology Park is all about **collaboration**.

It's a perfect location for companies that are collaborating in some way with ORNL. It's also a terrific place for those companies wishing to develop new relationships with ORNL staff which can lead to future collaborations!

Don't miss this unique opportunity to work side by side ORNL's best and brightest to address key opportunities that will help strengthen America's economy!

RIDGE**
National Laboratory

The Design

Phase I of the S&T Park is now complete, and two buildings totaling 135,000 square feet are now occupied by more than a dozen companies. Future phases will enable the S&T Park to grow to nearly 30 acres and support up to 350,000 square feet of offices and laboratories in a campus environment.

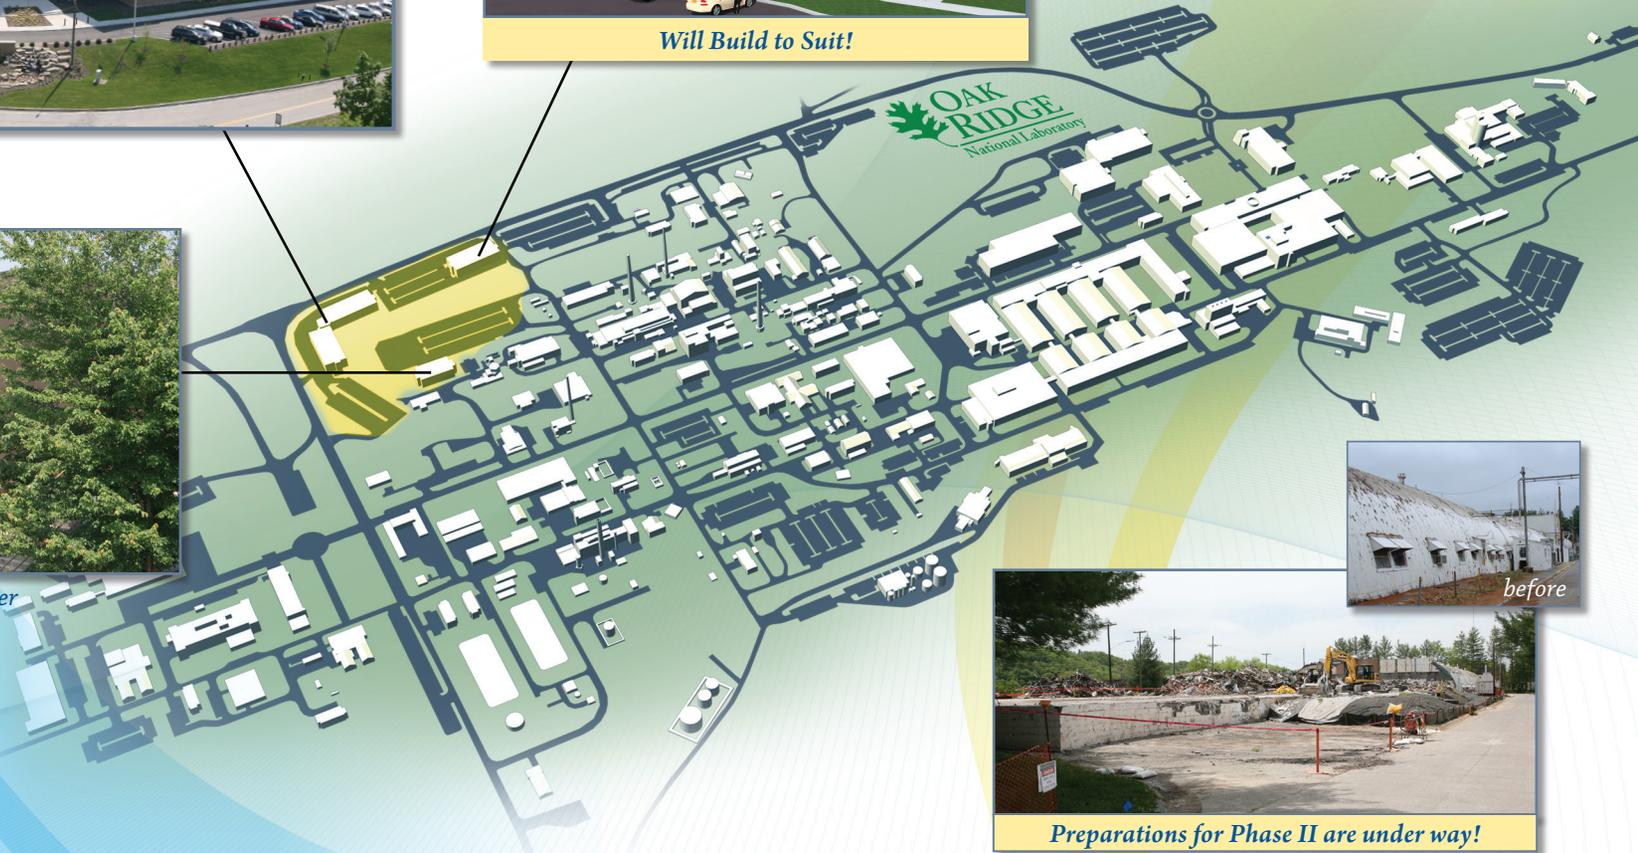

National Energy Security Center

Will Build to Suit!
