

*R&D*

*Leadership*

at the group level

**Sherrell R. Greene, Nuclear Science and Technology**

*For vision, creativity, and leadership that has established ORNL as an R&D leader in the development and utilization of fission power reactors for the exploration of space*

**Johney Boyd Green, Jr.,** Engineering Science and Technology  
*For innovative leadership of the Fuels and Engines Research Group*

**David M. Hetrick, Computational Sciences and Engineering**

*For outstanding and exemplary leadership of the Computational Science and Engineering Division Modeling and Simulation Group and program development leadership*

**Cecil V. Parks, Nuclear Science and Technology**

*For sustained leadership in coordinating an integrated approach to the development and application of nuclear analysis software that has provided significant programmatic growth and recognition for ORNL*
