

*Early
Career Award*

for engineering
accomplishment

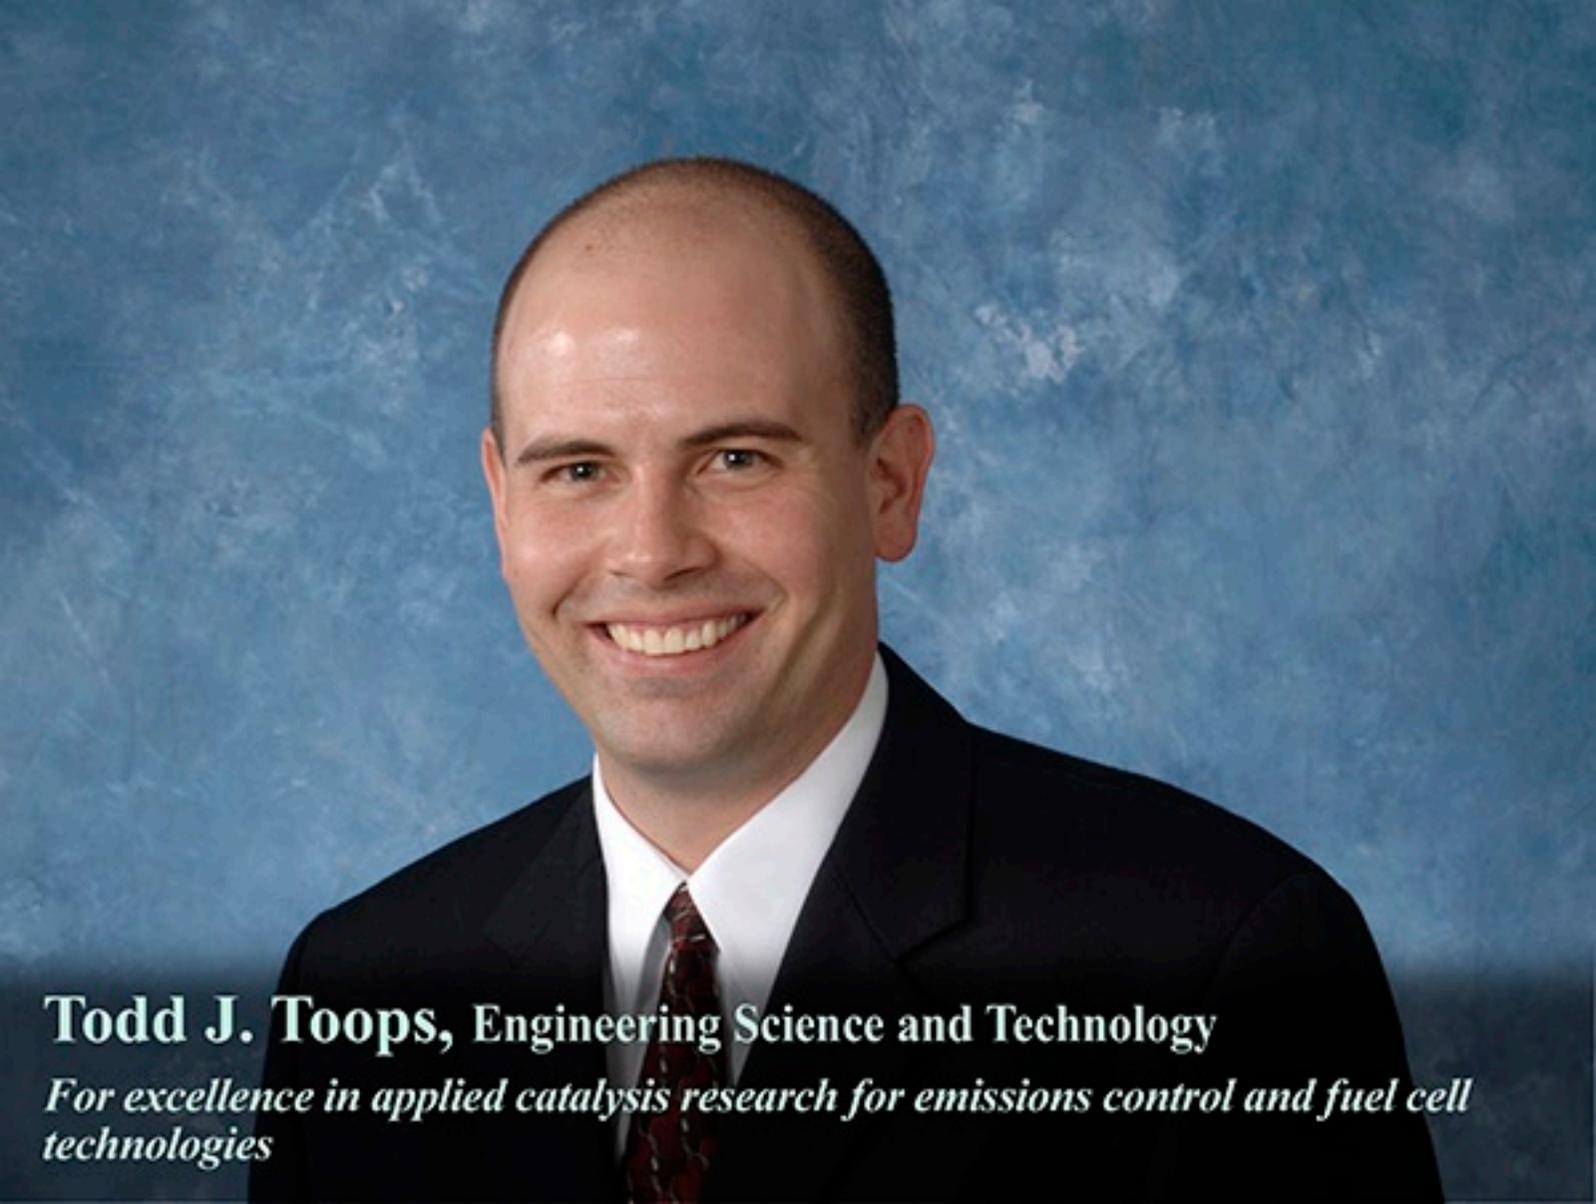

Burak Ozpineci, Engineering Science and Technology

For excellence in engineering research on advanced power electronic device applications and power system topologies which are critical to DOE's goals of energy efficiency

A portrait of Sara A. Pozzi, a woman with short dark hair, smiling. She is wearing a light-colored blazer over a dark top. The background is a textured blue.

Sara A. Pozzi, Nuclear Science and Technology

For the development of the Monte Carlo N-Particle - Politecnico di Milano transport code and its application to the design and analysis of correlation measurements in the field of nuclear materials identification

Todd J. Toops, Engineering Science and Technology

For excellence in applied catalysis research for emissions control and fuel cell technologies
