Mr. Wolf currently leads product development initiatives for Owens Corning's (OC) residential insulation business. He has also held various technical leadership positions in support of OC's reinforcement and masonry products businesses, including both process and product development initiatives. His expertise is in the areas of heat and mass transfer, fluid mechanics and building science. He holds 3 U.S. patents with 7 pending. He has authored 5 external technical papers and 10 internal Technical and Memo reports. He received the Owens Corning Innovation Award in 2002, 2010, and was a finalist in 2007. Prior to joining Owens Corning, Mr. Wolf received his doctorate degree in mechanical engineering from Purdue University in 1993.
