Mr. Pellegrin is a Senior Research Associate in the Building Science group at Owens Corning, where he has been employed for 33 years. In addition to involvement with building science issues, his responsibilities have included manufacturing process and product research, development, and project management for composites and insulating materials applications, and extensive industrial troubleshooting. He holds 25 US Patents, and has BS (Aerospace Engineering), MS (Theoretical and Applied Mechanics), and Ph.D. (Mechanical Engineering) degrees from West Virginia University.
