Mr. Gatland is the Manager of Building Science Technology for CertainTeed Corporation. He is responsible for generating and providing technical information to architects, engineers, builders, trade contractors, building envelope consultants, building scientists and building code officials on the system performance of new and existing building envelope materials, as well as building science educational training. Mr. Gatland has expertise in the areas of building science and architectural acoustics with an extensive national and international network of professional contacts in the fields of building science, energy efficiency, heat and moisture transfer, environmental acoustics and fire performance.

Prior to joining CertainTeed he was a supervisor of materials testing for Celotex Corporation's Technical Center in St. Petersburg, FL and a thermal engineering research consultant for the Center for Applied Engineering in St. Petersburg, FL. Mr. Gatland is a graduate of the University of Massachusetts, Amherst, with both a Master of Science degree and Bachelor of Science degree in mechanical engineering. He is a member of ASHRAE, ASTM, ASME and BETEC.
