

Conference Presentation (invited, oral)  
Workshop on *Polarisation Analysis and Inelastic Cold-Neutron Scattering* at Australia's  
Replacement Research Reactor  
January 27-28, 2004  
Lucas Heights, Australia

Title & Abstract:

**Polarised and Cold Neutron Inelastic Scattering: One American Perspective**

Outline (in place of Abstract):

1. Polarized inelastic scattering using a triple axis spectrometer
2. One scientific example in detail
3. Cold neutron inelastic scattering
4. The American situation (as seen from Tennessee)
  - Future prospects
