CNMS Town Hall Meeting

Wednesday, August 12, 2020 Starts at 1:30 PM EDT

Matt McDowell

Chair of the User Executive Committee Assistant Professor, Georgia Tech

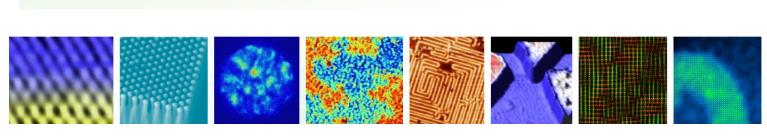

CNMS is a national user facility with a mission to advance nanoscience

About CNMS:

- Free access to staff expertise and equipment (if intent is to publish)
- Two proposal calls per year; proposals for short-term projects accepted continuously
- Short proposal process, and online submission portal
- Joint proposals with SNS and HFIR

Research Expertise and Capabilities:

- Imaging, microscopy, and nanoscale characterization
- Theory, modeling, and simulation
- Synthesis and fabrication
- Soft matter synthesis and characterization
- Functional characterization of nanomaterials

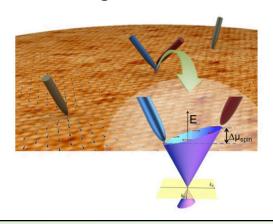

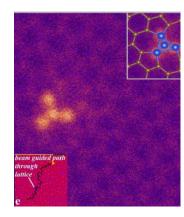

Theme Science

Directed Nanoscale Transformations

- Understanding energy transfer in materials transformations
- Role of energy landscape in controlling transformations

Metastabilities in Nanomaterials

- Understanding field effects
- Reversible state change mechanisms
- Control over materials properties

Harnessing Complex Macromolecular Conformations

- Structural and polarization dynamics in dipolar polymers
- Topological effects in (block co-) polymers
- Processing effects

- Reveal structure of heterogeneities
- Understand effects of heterogeneities
- Control heterogeneities

Heterogeneities in Quantum Materials

CNMS User Executive Committee 2020 Members

Chair: Matt McDowell (Georgia Tech) 2020

Vice Chair: Joshua Agar (Lehigh U.) 2020

Secretary: Zach Hood (Argonne NL) 2021

Past Chair: Rafael Verduzco (Rice U.) 2020

At-Large Members

•	Veronica Augustyn	(NCSU) 2020-2021
---	-------------------	-------	-------------

- Kelsey Hatzell (Vanderbilt U.) 2020-2021
- Shengxi Huang (Penn State U.)
 2019-2020
- Saban Hus (U. Texas, Austin) 2019-2020
- Josh Kacher (Georgia Tech) 2019-2020
- Petro Maksymovych (ORNL) 2019-2020

CNMS Staff (non-members)

- Brad Lokitz
- Sandy Lowe
- Karren More

THANK YOU!

Industrial Liaison: Christopher Jacobs (B/S/H Home Appliances) 2020-2021

UEC Responsibilities

Primary Responsibilities

- Identify user issues and provide input to CNMS administration on behalf of users
- Review User Satisfaction Survey and make recommendations to CNMS
- Advise on Strategic Plan updates

Other Important Responsibilities

- Organize annual User Meeting
- Provide oversight for proposal process
- UEC elections
- Represent users at BES on-site reviews (Triennial Review happened in summer 2019)
- Attract new users to CNMS

User Satisfaction Survey

Very positive response overall this year (35% response rate)

- 95% generally satisfied with operating schedule, availability of instrumentation, and experiment timing
- 96% generally satisfied with facility performance
- 97% generally satisfied with staff support

Key issues noted by users

- Upgrading Raman spectroscopy and E-beam lithography facilities
- All capabilities of current equipment online
- Staff can be overworked addition of staff would be helpful
- While most users report good communication with staff, communication breakdown can happen
- Better connection between users and staff recommendation of monthly webinar from UEC

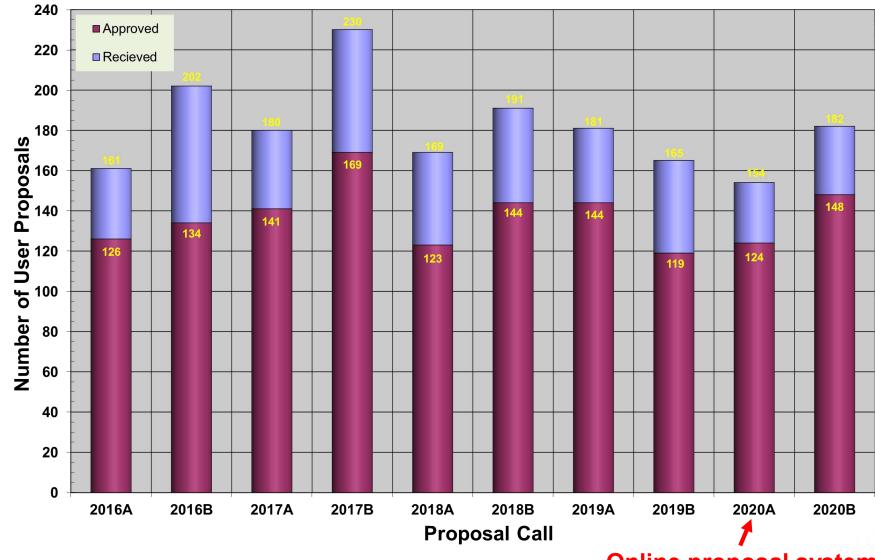

Triennial Review

Triennial review occurred in summer of 2019

Some comments from reviewers specifically related to UEC/CNMS interactions

- Need better communication between UEC and SAC
 - Now: UEC chair attends SAC meetings
- Integrate theme science and user program more effectively
- More interactions between UEC and users
 - Webinars, office hours
- More interactions between UEC and SNS/HFIR user group (SHUG)

Proposals Submitted and Approved

- 653 unique users in FY19 → **Projecting 540 in FY20**
- 407 general user proposals in FY 19 → 436 in FY18
- 425 user proposals received in FY19 (including 79 Rapid Access)
- 781 active user projects during FY19 \rightarrow ~805 (est.) active projects during **FY20**

Online proposal system **SOAK RIDGE** started in 2020A

Next CNMS Proposal Call – 2021A

Announced at User Meeting (Aug. 12, 2020)

Deadline: Thursday, Oct. 15, 2020 12pm EST

Notifications mid-December

Project Start Date: Monday, Feb. 1, 2021

UEC Election Nominations

Nomination Procedure:

Send an email to cnms-uec@ornl.gov identifying the nominee(s) and the office(s) for which you are nominating them (Vice-Chair or At-Large).

To expedite your nomination, it is strongly suggested that you identify another CNMS user who is willing to second the nomination, CC that member on your nominating email, and ask them to confirm their support by a reply to cnms-uec@ornl.gov.

Nominations will be accepted through the end of the CNMS User Meeting on August 12, 2020.

See "Logistics" Tab on Whova for this information!

cnms-uec@ornl.gov

Open Floor for Questions

Comments or suggestions for the UEC?

cnms-uec@ornl.gov

Open Floor for Questions

- 1) What sort of working arrangements are possible for students short and/or long term?
- 2) What are the best mechanisms for students to come to ORNL?

 ORISE programs (HERE, SULI, GO! program), DOE programs (SCGSR), User Program, etc.
- 3) With the "Reimagining ORNL" initiative, what new scientific and organizational opportunities can help grow the user body at the CNMS?
- 4) If my research interests <u>are</u> or <u>are not</u> related to the Theme Science at ORNL, what is the best way to get involved in working with CNMS?
- 5) In the time of COVID, what can we do to better connect users and CNMS staff?

Poster Awards

Best Student Presentation Award Winners

All five students will receive a Best Poster Presentation Award

Platinum Award (\$160)

- Sophie van Vreeswijk, Utrecht University
 - Nanoscale Visualization of Carbon Deposits and Magnesium Clusters in Zeolites Active in the Methanol-to-Olefins Process

Gold Award (\$90)

- Sandra Stangebye, Georgia Institute of Technology
 - Investigating Grain Growth in Nanocrystalline Aluminum through In Situ MEMS-based Nanomechanical Testing

Silver Award (\$60)

- Luke Galuska, University of Southern Mississippi
 - Critical Role of Water on Correlated Structural and Mechanical Response of Water-supported and Free-Standing Ultrathin Film

Bronze Award (\$30)

Josh Allen, Vanderbilt University

• Inverse Design of Bowtie Photonic Crystal to Achieve Increased Light-Matter Interaction

Bronze Award (\$30)

Tie

- Tri Nguyen, Lehigh University
 - Image Similarity Latent Manifolds for Materials Microscopy

Inaugural Outstanding CNMS Staff Member Award

Intention: show appreciation from users for the expertise and assistance of CNMS Staff

Judging process:

- Achievement and performance: important and significant research contributions; strong commitment to CNMS's mission and core values
- <u>User service and interactions</u>: positive, effective, and respectful work with others; foster collaboration with CNMS user community
- <u>Support and initiative</u>: initiative to enhance processes/systems; expands responsibilities and improves quality of CNMS's operation

A subcommittee of the UEC judged nominees.

Inaugural Outstanding CNMS Staff Member Award

Liam Collins

Congratulations!
