

# EUROPEAN SODIUM FAST REACTOR (ESFR)

Antonio Jiménez-Carrascosa, Nuria García-Herranz  
Universidad Politécnica de Madrid (Spain)

Fuel pin-cell

Sub-assemblies

Whole core

3600 MWt sodium cooled fast reactor

SCALE6.2.3 version for rendering

Heterogeneous 3D full core model  
created in the frame of the ESFR-SMART  
EU project

Inner core (216 assemblies) and outer core (288 assemblies)

24 control and shutdown devices (CSD), 12 dedicated shutdown  
devices (DSD), 31 corium discharge tubes and axial sodium  
plenum followed by a neutron absorber

Multi-batch core model containing 84 burnable regions
