Since the COVID-19 Community Level is currently LOW, nonemployees including UT-Battelle users, students, joint faculty, and visitors do NOT need to complete a Vaccination Information Form before coming on site. If the Community Level increases, nonemployees will receive the form electronically along with their entry pass; copies will also be available in the Visitor Center. UT-Battelle will not retain copies of completed forms.

Should the COVID-19 Community Level return to Medium or High, the requirement for a Vaccination Information Form could be reinstated and/or other measures could be required. If local COVID-19 conditions worsen, requirements could change, i.e., nonemployees could be required to show proof of a negative COVID-19 test to gain site access.

ATTENTION TRAVLERS WHO HAVE TRAVELED OUTSIDE THE EAST TENNESSEE AREA

If you are not “up-to-date” with your COVID-19 vaccines
- get tested 3-5 days after travelling, and,
- wear a KN95 mask* for 10 days after travelling

People are considered “Up-to-date” if they have had all recommended vaccines, including booster dose(s) when eligible.

- You can pick up a KN95 mask when you check in at the Visitor Center.
