For your upcoming visit to ORNL you will need to be aware of the ORNL COVID vaccination policy.

Facility users and educational participants (students and faculty) will be required to be fully vaccinated (meaning 2 weeks following their 2 doses of Moderna or Pfizer or 2 weeks following their 1 dose of Johnson & Johnson / J&J) and complete the attached Vaccination Certification to work onsite.

If not fully vaccinated, visitors must provide a negative COVID test within the prior 72 hours and be tested weekly as appropriate and provide results to the ORNL Visitor Center. The test must be from a testing center that produces a result that is time/date stamped. If fully vaccinated, complete the Vaccination Certification.

Please complete the Vaccination Certification and bring with you to your visit. Copies will also be available at the ORNL Visitor Center as well. You should always keep the certification with you while on campus at ORNL.

Do not show the certification or negative test to the security guard. These will be presented to the Visitor Center.

Without appropriate information - access to the site will be denied.

Please contact your ORNL contact if you have questions about this policy.
