RESEARCH INTERESTS

I study interactions between engineered and natural systems in the context of climate change mitigation and carbon management. My work to date has primarily focused on evaluating the environmental performance of bio-based systems in both advanced- and developing-country settings. Central to this is the synthesis of ecological processes knowledge and spatial carbon cycle modeling results into life cycle assessment and emissions accounting frameworks for system design and decision support purposes. I seek to introduce a ‘big data’ component to my research, synthesizing remote sensing data using data–model integration techniques.

PROFESSIONAL APPOINTMENTS

- 2021 – **R&D Staff Member**, Bioresource Science & Engineering Group, Environmental Sciences present Division, Oak Ridge National Laboratory, Oak Ridge, TN.
- 2021 – **Research Associate**, Natural Resource Ecology Laboratory, Colorado State University, present Fort Collins, CO.
- 2015 – **Research Scientist**, Natural Resource Ecology Laboratory, Colorado State University, 2021 Fort Collins, CO.

EDUCATION

- 2008 – **Ph.D.**, Dept. of Mechanical Engineering, Colorado State University, Fort Collins, CO.
- 2015 Co-Advisors: Drs. Bryan Willson (Dept. Mech. Eng.) & Keith Paustian (Dept. Soil & Crop Sci.)
Dissertation (hdl.handle.net/10217/167235): Towards the systematic identification of low-cost ecosystem-mediated carbon sequestration opportunities in bioenergy supply chains.
- 2000 – **B.Sc.**, Dept. of Mechanical & Aerospace Engineering, Case Western Reserve University, 2005 Cleveland, OH. Advisor: Joseph Prahl

COMPETATIVE GRANTS & FELLOWSHIPS

- 2021 – **Principal Investigator**, “High-Resolution Plant Productivity Data for Improved Bioenergy Assessment”. **Oak Ridge National Laboratory**; Laboratory Directed Research & Development (LDRD) Strategic Hire funding. (\$500,000 total project award)
- 2020 – **Principal Investigator**, “Agent-based Modeling for the Multi-objective Optimization of Energy Production Pathways”. **US Dept. of Energy**; Office of Energy Efficiency & Renewable Energy (EERE); Bioenergy Technologies Office (BETO). (\$1,000,000 total project award)
- 2018 – **Principal Investigator**, Economics & Sustainability team, Center for Bioenergy Innovation (CBI, <https://cbi.ornl.gov/>). **US Dept. of Energy**; Office of Science Office of Biological and Environmental Research (BER); Genomic Science program. Center led by Oak Ridge National Laboratory. (\$350,000 sub-award)
- 2017 – **Project Director**, “Reconciling Economic and Biophysical Perspectives on Marginal Land for Sustainable Bioenergy Crop Production”. **US Dept. of Agriculture**; National Institute of Food & Agriculture (NIFA) Foundational Program; Bioenergy, Natural Resources, and Environment (BNRE) area. Includes collaborators at U. California, Berkeley (D. Zilberman) and the USDA Agricultural Research Service (P.R. Adler). (\$499,000 total award)
- 2015 Sustainability Leadership Fellowship, School of Global Environmental Sustainability (SoGES), Colorado State University, Fort Collins, CO.
- 2011 C2B2-Chevron Graduate Fellowship, Colorado Center for Biofuels and Biorefining, Boulder, CO. (\$8,000)
- 2009 – NSF IGERT Fellow, Multidisciplinary Approaches to Sustainable Bioenergy program, 2012 Colorado State University. (3 years of tuition support and stipend)

CONFERENCE PAPERS PRESENTED

2018 **Field J.L.**, Bagdon B., Nguyen T., Vorster A., Paustian K. “A Framework for Quantifying Climate Outcomes of Beetle-Killed Forest Biomass Utilization.” LCA XVIII conference, hosted by the American Center for Life Cycle Assessment, Fort Collins, CO. Sept. 26, 2018.

Field J.L., Paustian K. “Sustainable Feedstocks for Carbon-Negative Bioenergy: A Landscape Design Case Study.” International Conference on Negative CO₂ Emissions, Gothenburg, Sweden. May 22, 2018.

2013 **Field J.L.**, Dinh T., Easter M., Marx E., Tryner J., Alder P., Paustian K. “Biofuels on the Landscape: Modeling to Balance the Environmental Footprint of Feedstock Production on Marginal Lands.” In *New Crops: Bioenergy, Biomaterials, and Sustainability*, Proceedings of the Joint Annual Meeting of the Association for the Advancement of Industrial Crops and the USDA National Institute of Food and Agriculture Washington, D.C., October 12-16, 2013. <https://hort.purdue.edu/newcrop/proceedings2015/>

2011 Evans S.G., **Field J.L.** “A technology-specific methodology for evaluating the GHG mitigation potential of advanced improved cookstoves.” 12th International Conference on Indoor Air Quality and Climate, Austin, TX. June 6, 2011.

OTHER CONFERENCE PARTICIPATION

- 2021 “Simulating landscape-scale impacts of switchgrass nitrogen use efficiency.” Poster presented at the Biological Systems Science Division Principal Investigators Meeting (virtual). Feb. 22, 2021.
- 2020 “Sustainable intensification or natural climate solutions? Case studies assessing opportunities for land-based biological carbon mitigation on former & current agricultural lands.” Presentation at the American Geophysical Union Fall Meeting (virtual). Dec. 7, 2020. <https://www.youtube.com/watch?v=-jTgS-nRJyl>
- 2019 “Modeling the Climate Mitigation Potential of Beetle-Kill-to-Biofuel/Biochar Systems: Bioenergy Alliance Network of the Rockies (BANR).” Presentation at the American Geophysical Union Fall Meeting, San Francisco, CA. Dec. 11, 2019
- 2018 “Reconciling Economic & Biophysical Perspectives on Marginal Land for Sustainable Bioenergy Crop Production.” Presentation at the USDA/NIFA 2018 Climate and Agroecology Project Directors Meeting, Washington, DC. Dec. 7, 2018.
- “Assessing Contributions from Biogenic Emissions to the Biofuel Lifecycle: A Landscape Design Case Study.” Presentation at the LCA XVIII conference, hosted by the American Center for Life Cycle Assessment, Fort Collins, CO. Sept. 26, 2018.
- 2016 “Beetle-Kill to Biochar: Good Climate Sense?” Presentation at Biochar 2016, hosted by the US Biochar Initiative, Corvallis, OR. Aug. 23, 2016.
- 2014 “Ecosystem Modeling to Identify Low-Cost GHG Mitigation Opportunities in Heterogeneous Bioenergy Landscapes.” Presentation at the American Society of Agronomy, Crop Science Society of America & Soil Science Society of America International Annual Meetings, Long Beach, CA. Nov. 3, 2014.
- 2013 “Biofuels on the Landscape: Modeling to Balance the Environmental Footprint of Feedstock Production on Marginal Lands.” Presentation at the American Society of Agronomy, Crop Science Society of America & Soil Science Society of America International Annual Meetings, Tampa, FL. Nov. 4, 2013.
- 2012 “Bioenergy Landscape Design to Minimize the Environmental Impacts of Feedstock Cultivation.” Presentation at the American Geophysical Union Fall Meeting, San Francisco, CA. Dec. 7, 2012.
- “Liming Effects and Winter Wheat Yield Response in Biochar-Amended Agricultural Soils.” Presentation at the American Society of Agronomy, Crop Science Society of America & Soil Science Society of America International Annual Meetings, Cincinnati, OH. Oct. 22, 2012.
- “Soil Biogeochemical Modeling for Optimal GHG-Mitigating Biomass Feedstocks.” Presentation at the American Society of Agronomy, Crop Science Society of America & Soil Science Society of America International Annual Meetings, Cincinnati, OH. Oct. 22, 2012.

RESEARCH MANAGEMENT EXPERIENCE

- 2019 – **Principal Investigator** on “A Landscape-Based LCA Analysis for Sustainable Feedstock Production”. Funded by Argonne National Laboratory (ANL), contract No. 9-P127-P-00212-00 (\$60,000 award)
- 2017 – **Principal Investigator** on a project to model energy crop cultivation on abandoned agricultural land. Funded by the Stanford Global Climate & Energy Project (GCEP), “Sustainable Transportation Energy with Net Negative Carbon Emissions” project led at University of Minnesota (\$150,000 sub-award)
- 2018
- 2016 **Principal Investigator** on a project to model corn stover collection for bioenergy applications. Funded by the USDA Agricultural Research Service (ARS) Pasture Systems and Watershed Management Research Unit (\$15,000 sub-award)
- 2013 – **Project Manager** for the Bioenergy Alliance Network of the Rockies (BANR, <http://banr.nrel.colostate.edu/>), a USDA National Institute of Food and Agriculture (NIFA) Coordinated Agricultural Project (CAP) in collaboration with four other universities, the US Forest Service Rocky Mountain Research Station, and industrial affiliates Cool Planet Energy Systems and Confluence Energy. Participated in initial proposal development, and currently leading ecosystem modeling and lifecycle assessment tasks within the project. (\$9,800,000 total project award)
- 2020
- 2009 – **Graduate Research Assistant**, Natural Resource Ecology Laboratory, Colorado State University, Fort Collins, CO. Supported through USDA-NIFA project “Decision support tool for integrated biofuel greenhouse gas emission footprints.”
- 2013

MENTORING EXPERIENCE

- Postdoctoral level **Yao Zhang:** ARS corn stover project (2016–2017)
- Ben Bagdon:** BANR project (2017–present)
- Trung Nguyen:** BANR project (2017–2020); ANL landscape LCA project (2019–2020)
- Graduate level **Haley Stauffer** (The Pennsylvania State University): CBI project (2020–2021)
- Undergraduate level Research Experience for Undergraduates (REU), Colorado Center for Biorefining and Biofuels: **Abbie Tremblay** (Clemson University, summer 2011); **Thai Dinh** (Oklahoma State University, summer 2012, co-author on Field et al. 2018 *Nature Energy*); **José Milan** (University of Puerto Rico, summer 2015)
- Sustainable Bioenergy Development Center fellowship, Colorado State University: **Jacqueline Marquez** (Colorado State University, Fall 2013 – Spring 2014)

TEACHING EXPERIENCE

- 2019 **ESS/ENGR 555: Life Cycle Assessment for Sustainability**, Cross-listed in the Dept. of Ecosystem Science & Sustainability and the College of Engineering, Colorado State University. Completely re-designed a previously-offered course around open-source LCA software, and developed associated lectures, readings, and laboratory activities from scratch from a bioenergy LCA perspective. Taught spring 2019.
- 2012 – **AGRI 602: Bioenergy Policy, Economic, and Environmental Assessment**, College of
2015 Agriculture, Colorado State University. Co-taught interdisciplinary graduate-level course with topics including biogeochemistry, ecosystem modeling, lifecycle assessment, and integrated assessment. Instructor of record spring 2014 & fall 2015; teaching assistant in spring 2012 & 2013.
- 2012 – **AGRI 601: Introduction to Bioenergy Technology**, College of Agriculture, Colorado
2014 State University. Co-taught interdisciplinary graduate-level introductory course with topics including bioenergy feedstock sources, biogeochemistry, and lifecycle assessment. Instructor of record fall 2014; teaching assistant fall 2012 & 2013.
- 2008 – Graduate teaching assistant, MECH 486: Capstone Senior Design course, Dept. of
2009 Mechanical Engineering, Colorado State University (fall 2008 – spring 2009).

SERVICE

- Panel service & US Dept. of Agriculture, National Institute of Food & Agriculture (NIFA)
proposal review US Dept. of Energy, Bioenergy Technologies Office (BETO)
University of Tennessee SunGrant Initiative
North Dakota State University Center for Computationally Assisted Science and
Technology
- Academic Review Editor, *Frontiers in Climate – Negative Emissions Technologies*
journals Individual peer reviews for various journals including *Applied Energy; Applied
Engineering in Agriculture; BioResources; Ecological Applications; Ecological
Engineering; Electronic Journal of Energy & Environment; Energy Economics;
Environmental Research Letters; Environmental Science & Technology; Field Crops
Research; Global Change Biology; Global Change Biology Bioenergy; International
Journal of Lifecycle Assessment; Nature Sustainability; Pedosphere; Philippine
Journal of Science; Soil Science Society of America Journal*
- Conference Assisted with organization of the “Summit on Decarbonization of the
organization Agriculture Sector.” Oak Ridge National Laboratory (virtual), Oak Ridge, TN.
Sep. 21–22, 2021.

Co-convener for “USBI/BANR 2019: From Biomass to Biochar & Bioenergy –
Bridging Science and Opportunities.” Joint meeting of the US Biochar Initiative
and the Bioenergy Alliance Network of the Rockies, Fort Collins, CO. July 1–3,
2019. The conference was attended by 300 individuals and featured over 130

presentations and 18 industry exhibitors.

Life cycle assessment	GREET OpenLCA
Programming	Python programming language, including numpy, pandas, matplotlib, and plotly modules for data analysis and visualization Jupyter Notebooks & Jupyter Lab Databases (SQLite) Code-sharing & version control— https://github.com/johnfield/ Open data repositories— https://figshare.com/authors/John_Field/4456810
Science communication	Blogging: <ul style="list-style-type: none"> • CSU School of Global Environmental Sustainability—http://blog.sustainability.colostate.edu/?q=john-field • CSU Natural Resource Ecology Laboratory—goo.gl/YthvEM • CSU Bioenergy IGERT—https://bioenergyigert.wordpress.com/author/john1field/

WORKSHOP PARTICIPATION & OTHER TRAINING

2020	“Coordination & Research Assessment Meeting (CRAM II).” Joint Bioenergy Research Center workshop (virtual). May & June, 2020.
------	---

- 2015 “Bioenergy and Land Use Change: A Global Perspective” hosted by the Energy Technology Institute (ETI) Ecosystem Land Use Modeling (ELUM) project, Lancaster University, United Kingdom
- 2014 Global Sustainable Bioenergy Initiative (GSB) project planning meeting, Piracicaba, Sao Paulo, Brazil
- 2012 Biochar:Crossroads 1st International Summer School on Biochar, Leibniz-Institut für Agrartechnik, Potsdam-Bornim, Germany
- 2011 Biomass Supply Chain Modeling Workshop, National Renewable Energy Laboratory, Golden, CO
- Biomass Densification Workshop, Idaho National Laboratory, Idaho Falls, ID
- Rocky Mountain Biochar Initiative (RMBI) Spring Meeting, Colorado School of Mines, Golden, CO
- 2010 Rice: Research to Production (RR2P) Short Course, International Rice Research Institute (IRRI), Los Baños, Philippines
- MASB IGERT policy training experience, Heinz Center for Science, Economics & Environment, Washington DC
- 2009 Conference for Sustainability IGERTs 2 (C4SI2), Arizona State University, Tempe, AZ
- North American Biochar 2009, hosted by the International Biochar Initiative and the Center for Energy & Environmental Security, University of Colorado, Boulder, CO

NON-ACADEMIC EMPLOYMENT

- 2005 – **Mechanical Engineer**, Protonex LLC, Broomfield, CO. Developed testing facilities and
2008 protocols for small-scale solid oxide and direct methanol fuel cell systems, including balance-of-plant components.

PROFESSIONAL MEMBERSHIPS

- 2012 – American Geophysical Union, Biogeosciences Section & Global Environmental Change
present Section
- 2012 – American Society of Agronomy, Crop Science Society of America & Soil Science Society of
2014 America
