

**MARK D. LUMSDEN**  
Neutron Scattering Division  
Oak Ridge National Laboratory  
1 Bethel Valley Road, Oak Ridge, TN 37831-6475

Distinguished R&D Staff  
Spectroscopy Section Head  
E-mail: [lumsdenmd@ornl.gov](mailto:lumsdenmd@ornl.gov)  
(865) 241-0090

## Education

Ph.D. in Physics, McMaster University, Hamilton, Canada	1999
Thesis: "X-Ray Diffraction Study of the Spin-Peierls Phase Transition"	
Supervisor: Bruce D. Gaulin, McMaster University	

B.Sc. in Physics, St. Francis Xavier University, Antigonish, Canada	1993
---	------

## Appointments

Spectroscopy Section Head	2020-present
Neutron Scattering Division, Oak Ridge National Laboratory	
Leader, Spectroscopy Group	2017-2020
Neutron Scattering Division, Oak Ridge National Laboratory	
Leader, Time-of-Flight Spectroscopy Group	2012-2017
Quantum Condensed Matter Division, Oak Ridge National Laboratory	
Distinguished R&D Staff	2014-present
Oak Ridge National Laboratory	
Senior R&D Staff, Oak Ridge National Laboratory	2007-2014
R&D Staff, Oak Ridge National Laboratory	2001-2007
Eugene P. Wigner Fellow, Oak Ridge National Laboratory	1999-2001

## Professional Memberships

- *Fellow*, American Physical Society (2015) "For contributions to the understanding of magnetism in iron-based superconductors using neutron scattering techniques."
- *Fellow*, Neutron Scattering Society of America (2018) "For outstanding applications of neutron scattering to the study of iron-based superconductors and other problems at the forefront of condensed matter physics, and for important contributions to the advancement of inelastic neutron scattering in North America."
- *Fellow*, American Association for the Advancement of Science (2021) "For outstanding contributions to the understanding of magnetism in iron-based superconductors and other quantum materials through application of neutron scattering techniques."

## Honors and Awards

Fellow of the American Association for the Advancement of Science	2021
Fellow of the Neutron Scattering Society of America	2018
ORNL outstanding team accomplishment and Director's award: fractionalized excitations in $\alpha$ -RuCl <sub>3</sub>	2016
Fellow of the American Physical Society	2015
Gordon Battelle Award for scientific research – principal investigator	2011
ORNL award for scientific research and Director's team award: research on Fe-based superconductors	2009
ORNL significant event award: research on Fe-based superconductors	2008
ORNL significant event award: development of SPICE data acquisition system	2005
Eugene P. Wigner Fellowship - ORNL	1999-2001
NSERC Postdoctoral Fellowship - Natural Sciences and Engineering Research Council of Canada	1999-2001

## Outreach

Co-organizer of workshop “Quantum Materials: New Insights from Neutron Scattering”. Virtual workshop hosted by University of Minnesota (June 9-10, 2021)	2021
Member of the TRIUMF Molecular and Materials Science Experiments Evaluation Committee	2015-2021
Co-organizer of workshop (hosted at Georgia Tech) “Early Quantum Materials Science at the Second Target Station”	2017
Communication Secretary, Neutron Scattering Society of America	2013-2017
Invited Participant, NSF Workshop on Midscale Instrumentation for Quantum Materials	2016
Participant and editor of workshop report for the 2013 Berkeley workshop on “Quantum Condensed Matter”	2013
Organizer, “Neutron Scattering Studies of Advanced Materials” symposium at 2013 MRS Fall Meeting	2013
Lead Organizer of a workshop entitled “Future of Inelastic Neutron Scattering at ORNL” to discuss plans and opportunities for future instrumentation at both SNS and HFIR, June 5-6, 2014, Oak Ridge National Laboratory	2014
“Inelastic Neutron Scattering”, Lecture to students as part of the IGERT workshop “Neutron Scattering for the Science and Engineering of the 21st Century”, Feb. 25- March 1, 2013, Oak Ridge National Laboratory.	2013
Led demonstration experiments using triple-axis spectrometers at the “National School on Neutron and X-Ray Scattering”	2009-2011
Secretary, SNS HFIR Users Group Executive Committee	2005-2007

## Relevant Experience and Internal Activities

- Laboratory Directed Research & Development (LDRD) – initiative lead for Neutron Sciences 2017-present.
- Principal investigator of the ORNL LDRD project “Spectroscopy of quantum matter under extreme pressures”.
- Lead author of the “Quantum Matter” section of the “First Experiments; Spallation Neutron Source; Second Target Station” document
- I have been strongly involved in the development of the science case / technical concept for the MANTA cold neutron spectrometer, a proposed world-class triple-axis spectrometer for HFIR.
- Member of the instrument advisory team for the CHESS direct geometry spectrometer for Second Target Station
- As instrument scientist on the HB-3 Triple-Axis Spectrometer at HFIR (2001-2011), I helped to develop a world leading science program on that instrument.
- I was part of a 3-person team that developed SPICE (Spectrometer and Instrument Control Environment), a LabVIEW-based data acquisition system designed to operate and control most of the instrument suite at the High Flux Isotope Reactor (HFIR). This software has been operating instruments at HFIR for over 20 years and has been adopted by several other neutron scattering facilities around the world.

## Scientific Interests

My principal scientific interests concentrate on the use of elastic and inelastic neutron scattering techniques in the study of quantum materials. Topics of interest have included complex magnetism and novel effects in quantum magnets, interplay between magnetism and itinerant electrons, search for fractionalized quasiparticles in quantum spin liquid candidates, studies of topological magnons, and studies of static and dynamic magnetism in iron-based superconductors.
