Biography

Dr. Prasanna Date is a Research Scientist at the Oak Ridge National Laboratory (ORNL). He explores AI and machine learning techniques on non-conventional computing platforms such as quantum computing and neuromorphic computing. For his research, he was featured on the 2022 Forbes 30 Under 30 Asia list. He received the R&D 100 Award in 2023 for developing world's fastest simulator for neuromorphic computing called SuperNeuro. He also received an R&D 100 Award in 2024 for developing the MAQ software library, which can train certain machine learning models on quantum computers faster than what is possible on some classical computers. He obtained his Ph.D. in Computer Science at Rensselaer Polytechnic Institute in 2019. He is also an independent music artist and produces his songs from his home studio.
