

Jennifer Tonzello Caldwell, Ph.D. **Group Leader, Technology Commercialization**

Jennifer Caldwell is Group Leader for Technology Commercialization in the Science and Technology Partnerships Directorate at the Oak Ridge National Laboratory (ORNL) which is operated and managed by UT-Battelle, LLC. She manages the Technology Commercialization Group which is responsible for intellectual property portfolio management, licensing, and technology transfer (including the management of the UT-Battelle Privately Funded Technology Transfer Program). Prior to joining ORNL in 2006, Caldwell commercialized technology at Research Corporation Technology, Inc. (RCT) located in Tucson, Arizona. RCT is a technology management company that licenses technology and invests in early stage technology ventures. She managed and licensed a technology portfolio concentrating in life sciences, biotechnology, and pharmaceuticals.

Caldwell earned a Bachelor of Science degree in Chemistry from Florida State University in 1994 and a Doctor of Philosophy in Chemistry (with emphasis in Biochemistry) from the University of Florida in 2000. Before pursuing a Ph.D., she was employed by EG&G Florida, Inc. at Kennedy Space Center as an Environmental Health Specialist.
