

## **Programmable Nanometer-Scale Metal Bonding to Single Molecules by Electrolytic Deposition and Depletion**

### **Disclosure Number**

199900772

### **Technology Summary**

The method of the subject invention provides programmable (reproducible) nanometer-scale bonding or dissolution of nanowires in liquid at room temperature and neutral pH.

### **Inventor**

GREENBAUM, ELIAS  
Chemical Sciences Division

### **Licensing Contact**

CALDWELL, JENNIFER T  
Rm 137, Bldg 4500N  
1 Bethel Valley Road 6196  
Oak Ridge, TN 37831

Office Phone: (865) 574-4180  
E-Mail: CALDWELLJT@ORNL.GOV
